Collaboration: It's Not Just a Catch Phrase

Presented by:

Phil Romig,
Science Curriculum Specialist
Sacramento County Office of Education

Uyen Do,
Project Manager, REEd
University of California, Davis

Outcomes

- Maximize a pre-existing condition between two entities

- Appreciate the value of collaboration: what is best for kids

Engineering Task

- Build a car that moves down a ramp a distance of 75 cm.

Engineering Task - Lenses

- Each participant will view the activity through the lens of the following:
  - Program Leader
  - Teacher
  - Parent
  - Student
  - Site Principal

Engineering Task -outputs

- What went well?

- What was missing (what are some resources that are needed to make this a better activity for kids?)

Design Challenge Question

How might we design a learning activity that….?

Wrap-up and Conclusions

- 3 new things you learned
- 2 connections you made to other learning
- 1 question you still have
