QUOTES:

“You can't be what you can't see- be relevant.”

“I teach mainly because I want to influence all my students in such a way that I illuminate their abilities, inspire them to greatness, and impress upon each of them, that if no one else does, I care. Simply stated, I love teaching because it gives me the opportunity to make a difference in the lives of my students.”

“My goal is to empower her students so they will become civically engaged and seek ways to better the world.”

Quote from a student:

“She encouraged us to be good people and remember how we make other people feel, no matter what situation we're in.”
